

SUBSEA COMPENSATOR 3 LITER

The IKM Technology 3 liter **Subsea Compensator** is a general-purpose compensator for temporary underwater hydraulic systems. It provides a given volume and pressure for oil-filled subsea equipment. A mechanical pin comes out of the end of the compensator when it is filled with oil, to give operators an indicator of the oil level. The recommended direction for installation is vertical.

SPECIFICATIONS

Type	Subsea Compensator
Model	3 liter
Part Number	6231-000
Material	POM, stainless steel, aluminium and rubber
Fluid	Mineral oil
Weight Air	9,44 kg
Weight Water	4,74 kg
Length compressed	246 mm
Length expanded	462 mm
Ø Flange	246 mm
Ø Body	200 mm
Pressure empty (10%)	0,2 bar
Pressure full (90%)	0,4 bar

- Various types and models.
- Oil level sensor (electrical) is optional for some compensators.
