

## SUBSEA COMPENSATOR 0.3 LITER

The IKM Technology **0,3 liter Subsea Compensator** is a general-purpose compensator for temporary underwater hydraulic systems. It provides a given volume and pressure for oil-filled subsea equipment. A mechanical pin comes out of the end of the compensator when it is filled with oil, to give operators an indicator of the oil level. The recommended direction for installation is vertical.

### SPECIFICATIONS

<b>Type</b>	Subsea Compensator
<b>Model</b>	0,3 liter
<b>Part Number</b>	6231-001
<b>Material</b>	POM, stainless steel, aluminium and rubber
<b>Fluid</b>	Mineral oil
<b>Weight Air</b>	2,65 kg
<b>Weight Water</b>	1,86 kg
<b>Length compressed</b>	153 mm
<b>Length expanded</b>	218 mm
<b>Ø Flange</b>	130 mm
<b>Ø Body</b>	96 mm
<b>Pressure empty (10%)</b>	0,2 bar
<b>Pressure full (90%)</b>	1,2 bar

- Various types and models.
- Empty compensator sensor (electrical) is optional for some compensators.
